

SCRCS Specialized Equipment Lending Library Catalogue

Our Mission Statement

CLH Developmental Support Services is a partnership of caring people working together to provide specialized services to children, youth and adults who have developmental support needs. We create an environment of acceptance, encouragement, and life-long learning, together with our network of dedicated community partners.

The Special Needs Resourcing (SNR) funding is made available from the County of Simcoe to purchase and lease specialized adaptive equipment and supplies to support children with special needs in licensed childcares.

A very big thank you to the County of Simcoe for making this project possible.

Welcome to the Simcoe County Resource Consultation Services Specialized Equipment Lending Library Catalogue.

We are pleased to present this comprehensive catalogue of specialized equipment available through our lending library to support the diverse needs of children within Early Learning and Child Care programs across Simcoe County. All items are available on a time-limited loan basis, similar to a traditional lending library, to ensure equitable access and shared community use.

As you review the catalogue, you will notice that each item is identified by a colored flag. The legend is outlined below:

- **Green** – Accessible in collaboration with your Resource Consultant
- **Yellow** – Accessible in collaboration with both your Resource Consultant and a member of the SPOT Team (Occupational Therapist, Speech-Language Pathologist, or Physiotherapist).
- **Red** – Accessible exclusively through a SPOT Team representative.

You may wonder why this distinction is important. Certain equipment may not be suitable for every child or appropriate for every classroom environment. The flagging system is designed to ensure that items are selected thoughtfully, with the appropriate professional guidance to support safe and effective use.

Each flagged item includes a brief description outlining its intended purpose, as well as the associated replacement cost for your reference.

Prior to receiving any loaned equipment, each Early Learning and Child Care (ELCC) program is required to complete and sign the annual Agreement for Loan.

The agreement may be completed by accessing the following link: [SCRCS Agreement for Loan](#), or by contacting our administrative team at css.admin@clhmidland.on.ca to request a copy.

Categories

AAC Devices

Supports communication between a child and their peers

Adaptive Play & Recreation

Focus on physical literacy and participation, using assistive tech or modified games for all ages and abilities

Daily Living Aids

Specialized tools, designed to assist individuals with limited mobility, dexterity, or physical challenges

Gross Motor

Expand the use of large muscles in the arms, legs, and torso to perform whole-body movements like walking, running, jumping, climbing, and throwing

Mobility & Seating

Adaptive seating refers to specialized, modifiable seating systems (cushions, supports, chairs) designed to improve posture, stability, and function for individuals with neuromuscular or mobility impairments. Mobility aids are devices, such as wheelchairs, walkers, and canes, that assist individuals in moving independently

Sensory

Adaptive sensory aides are specialized devices, tools, or technologies designed to assist individuals with limited sensory capabilities (such as vision, hearing, or sensory processing issues) to improve their ability to perceive, process, and react to their environment.
